

## **Abstract**

As part of this graduation project, an Information Security Conflict Management System was designed for the American Food Limited Partnership in Almaty.

In the design process, decisions were made to compare Information Security Management System Conflicts that meet the business objectives of a financial institution, by evaluating the information assets of the financial structure. And the most suitable solution was chosen by FortiSIEM.

The graduation project examines the safety measures of life and the cost-effectiveness of the Information Security Conflict Management System.
